## Getting Started

Welcome to the Create It Adventure. We believe that learning is awesome and that most times, school is boring. The goal of this project is for you to learn and create amazing things and have fun without ever being bored.

My name is Miles O'Shea and I'm a teacher who loves learning and hates a lot of what happens in schools. Learning shouldn't give you anxiety, put you to sleep, or make you wish you were somewhere else doing anything else. I've spent most of my life searching for ways to help people learn the way that they're supposed to which is in exciting, vibrant, creative, and amazing ways that allow for doing, not sitting.

If you're ready to go on the *Create It* adventure with me, I'm excited for you and ready to begin. You might notice that there is no end to this adventure. That's because our story isn't finished. We don't know where we're going or exactly what we will create together so there is no final destination yet. All I know for sure is that you are amazing. You're smart, creative, and full of energy. My goal is for you to create great things and be able to share them with those whom you care about most and maybe even the whole world.

If you think you're tired of being bored and ready to start creating amazing things from out of your mind, it's time to get started! Thanks for starting this journey and I'm so happy to have you along for the ride. When you're ready and have some time, advance to post #2 and see where your adventure will

begin.
